4. Select the Labels option on the right

The screenshot shows the GitHub web interface for the repository `cs340tabyu / CatanBugTracker`. The **Issues** tab is active. On the right-hand sidebar, the **Labels** section is highlighted with a red rectangular box. Below the title field, there are tabs for **Write** and **Preview**, and a note that **Markdown supported**. A large text area for comments is present, with a prompt to "Leave a comment". At the bottom of the form is a green button labeled **Submit new issue**. The footer of the page includes copyright information for GitHub, Inc. (© 2015), links to Terms, Privacy, Security, Contact, and Help, and a status bar with links to Status, API, Training, Shop, Blog, About, and Pricing.

5. A pop down will appear

6. Select the phase and team this bug should be reported to. (Not your team, the team who you are testing)

7. X out of the label drop down, and then submit the bug

The screenshot shows the GitHub interface for creating a new issue in the repository `cs340tabyu / CatanBugTracker`. The 'Issues' tab is active. The title field is filled with 'A bug'. The description field contains the text 'This is a bug'. The 'Submit new issue' button is highlighted with a red rectangle. The right sidebar shows the 'Labels' section with 'Phase 1' and 'Team 2' selected, and the 'Assignee' section with 'No one—assign yourself' selected.

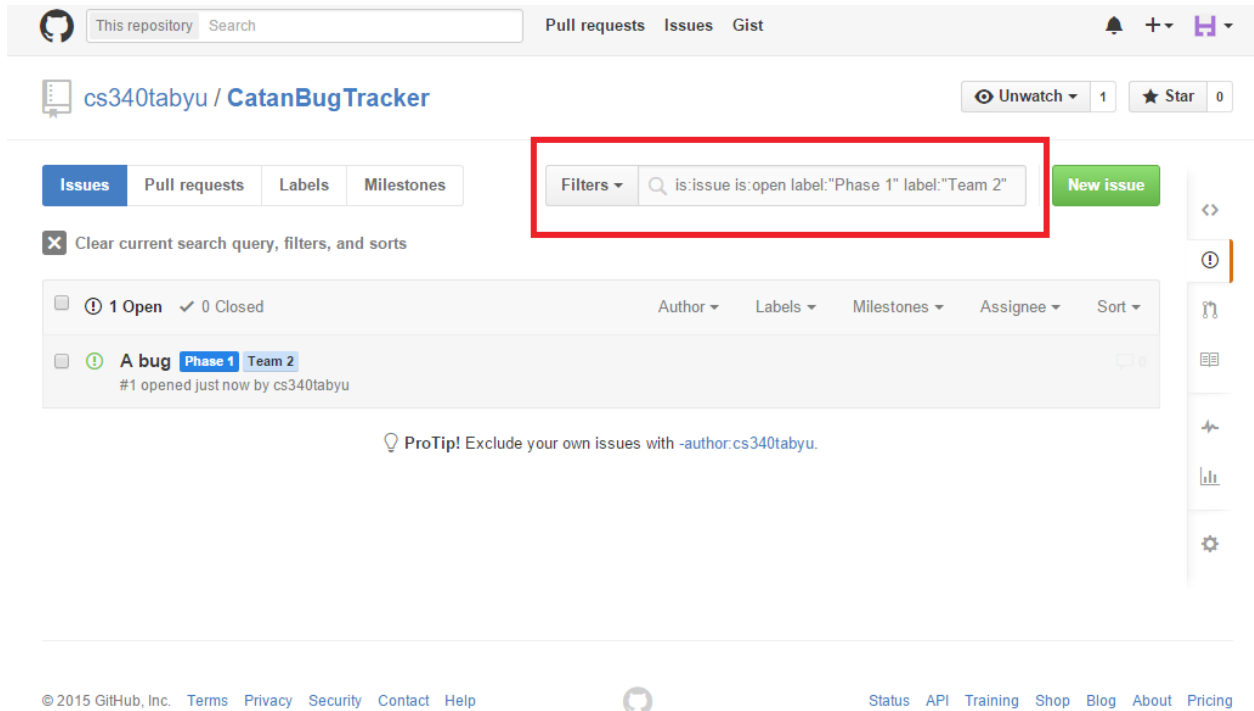

8. Boom that's it!

Scroll to the next page to view the bugs logged against you

To view the bugs logged against you:

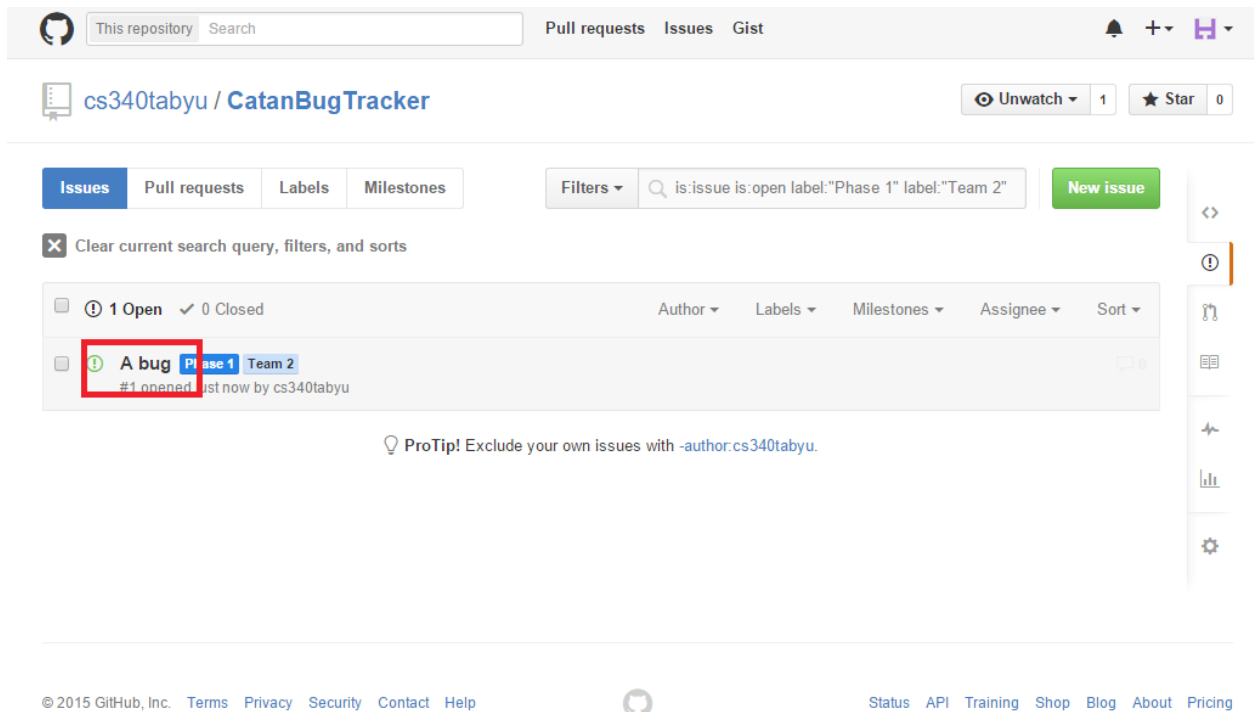

Go to this link:

1. <https://github.com/cs340tabyu/CatanBugTracker/issues>
2. In the search box enter [**label:"Phase X" label:"Team Y"**], where X is the phase you want to see and Y is your team number. **Press enter**

The screenshot shows the GitHub interface for the repository **cs340tabyu / CatanBugTracker**. At the top, there are navigation links for Pull requests, Issues, and Gist. Below the repository name, there are buttons for Unwatch (1) and Star (0). The main section has tabs for Issues, Pull requests, Labels, and Milestones. A search bar is highlighted with a red box, containing the query `is:issue is:open label:"Phase 1" label:"Team 2"`. Below the search bar, there is a button for "New issue". The search results show 1 Open issue and 0 Closed issues. The first issue is titled "A bug" with labels "Phase 1" and "Team 2", and a comment "#1 opened just now by cs340tabyu". At the bottom, a ProTip suggests excluding one's own issues with the filter `-author:cs340tabyu`.

3. Click the name of the bug you want details about

GitHub repository page for **cs340tabyu / CatanBugTracker**. The page shows the **Issues** tab with a search filter: `is:issue is:open label:Phase 1 label:Team 2`. A single issue is listed: **A bug** (Phase 1, Team 2), opened just now by cs340tabyu. The issue title is highlighted with a red box.

ProTip! Exclude your own issues with `-author:cs340tabyu`.
